January 13, 2010

Town of Clarkdale  
890 Main Street  
P.O. Box 308  
Clarkdale, AZ 86324

To Whom it May Concern:

The City of Sedona encourages projects that potentially enhance the economic, environmental, water resource, cultural and energy sustainability of communities in the Verde Valley region. The Sedona City Council has reviewed the Town of Clarkdale's plans for a Sustainability Park and believes that in general, the concept promotes the long-term environmental and economic vitality of the Verde Valley.

While not endorsing any particular technology or location for the Sustainability Park, the City of Sedona encourages the Town of Clarkdale to continue to pursue the concept of clean power, water and air, while improving the economic environment of the Verde Valley. We encourage anyone interested in solving some of society's most challenging environmental problems to support the Town of Clarkdale in this effort. By working together as a community, the Verde Valley can take the steps necessary to bring lasting prosperity and environmental stewardship to our region.

We recognize that the Sustainability Park will require further research before the vision can become a reality. In order for it to be a success, it will require legislative support, financial backing, and community dialogue. We encourage you to support the Town of Clarkdale as it continues to develop its vision of a Sustainability Park.

Sincerely,

A handwritten signature in blue ink, appearing to read "Rob Adams".

Rob Adams  
Mayor, City of Sedona
