Mayor Van Gausing
39 North Ninth Street
Clarkdale, AZ

Subject: AEE – AZ Support for the Clarkdale Sustainability Park

Mayor Von Gausig,

Thank you very much for presenting the vision for the Clarkdale Sustainability Park. Our members were intrigued about an evolutionary solution for a sustainability community during our February 11, 2010 Chapter meeting.

The mission of AEE is “to promote the scientific and educational interests of those engaged in the energy industry and to foster action for Sustainable Development.”

Therefore, please accept the Association of Energy Engineers – Arizona / Phoenix Chapter’s support of your project as we believe it is this type of project that will provide careers for our organization’s members and provide a roadmap for other communities looking to achieve their own sustainable.

Please consider providing our organization an update at a future chapter meeting after your feasibility study is completed or other milestones are reached.

Continued success and thank you for being an energy all-star.

Very truly yours,

Dave Palty, President
Association of Energy Engineers – Arizona / Phoenix, Chapter
